

MagiCAN

Non-Intrusive Simple CANBUS Read

MagiCAN is a simple “pick-up” device that uses electromagnetic induction, and allows reading of the broadcasted CANBUS parameters:

Simply place the MagiCAN over the CANBUS wires and the job is about to be done. ●

FEATURES

- 1 Non-Intrusive worry-free warranty violation installation over CAN wires
- 2 Read data thru the wires isolation
- 3 Fits all vehicles with CAN wires
- 4 Best used with ERM products

P/N: LOC-MAG-001
